DAILY BULLETIN - No.1

(translated from the information pages given out to members)

Hallo there!

First of all - emergency telephone numbers round the clock:

Head Office during the day - 970

Night-watchman during the evening and night - 840

The Dining Room will be open for breakfast and lunch - supper will not be served.

Shelters and sanitation - Dustbins will be emptied, and the shelters are being cleaned. Make sure you know to which shelter you are allocated - just in case.

The laundry and machsán are working, so you can throw in dirty linen.

The situation, as you will understand, is changeable, but as far as we know at this hour (11.00) we are planning to return to our daily routine tomorrow as far as possible - open the children's houses from 9.00 to 14.00, go to work. There is one exception: Whenever you go out, take your gas-mask with you.

The "Super" will be open from 9.00 - 12.00.

There are plenty of emergency supplies, so there is no need to stock up more than usual.

Keep well and - where's that smile?

Your roving reporter -

Inge
