

Our dearest Bobby,

So once again, you've done it your way...

You lived your life with a song in your heart and a dance in your soul, becoming very unique and meaningful to many of us, a great friend!!!

You really cared for the people you loved, and always had a twinkle in your eye and a big smile to share.

So as in life, even towards the end, you approached that bridge in order to pass, singing and smiling, what an inspiration!!!

So here's looking at you Bobby, so brave and so graceful...

Always, your Sunshine, Irene Shanti
